

CUSTOMERS'S QUESTIONNAIRE: WATER PURIFICATION

Specify Water origin	well, deep well, surface (river, lake, etc.)	
Nominal output	m ³ /h	
Max. output	m ³ /h	
reaction of the water	pH	
Dissolved substances	mg/l	
Temperature of the water	°C	
Turbidity (describe)		
Color (describe)		
Smell (describe)		
Total hardness	ppm CaCO ₃ or ON (German)	
Temporary hardness	ppm CaCO ₃ or ON (German)	
Iron Fe	mg/l Fe	
Manganese Mn	mg/l Mn	
Calcium Ca	mg/l Ca	
Magnesium Mn	mg/l Mn	
Sodium Na	mg/l Na	
Ammonia NH ₃	mg/l NH ₃	
Other cations	mg/l specify, if possible	
Acid carbohydrates HCO ₃	mg/l HCO ₃	
Chlorides Cl	mg/l Cl	
Sulfates SO ₄	mg/l SO ₄	
Nitrates NO ₃	mg/l NO ₃	
Phosphates PO ₄	mg/l PO ₄	
Other anions	mg/l specify, if possible	
Chemical Oxygen Demand level.	mg/l O ₂	
Silica SiO ₂	mg/l SiO ₂	
Other impurities	mg/l specify, if possible	
Destination of the water: potable – in case of countries other than European Union, please indicate the valid standard		
industrial/agricultural – please, indicate desired water parameters		
Remarks and special requests		
NOTICE: the more exact are the parameters of the water to be treated, the easier and more correct will be the designed purification system! This will allow avoiding problems regarding obtaining water of the desired parameters and complications in terms of operation of the designed systems due to inaccurate data!
